Internet of Things

Technology Development

Experience and knowledge, including familiarity with the relevant regulatory, market and technology challenges, in key markets such as:

Energy & Natural Resources

Financial Services/Fintech

Food & Agribusiness

Hospital/Medical

Insurance

Life Sciences

Mobile Devices

Retail

Software & IT

Collaborative Approach

Our core IP and Technology Transactions team works hand-in-hand with in-house legal, business and technology teams to develop a negotiation plan that is tailored to the specific deal and the client's business goals. Depending on the project, we may team with Faegre Drinker M&A deal attorneys, and we regularly call on our colleagues with deep knowledge in areas such as FDA, cybersecurity and patents.
